How Can I get Drug Pricing Online?

The Drug Pricing tool lets you search for medications before filling prescriptions at the pharmacy. Pricing is based on your specific benefit plan and will include costs at the OptumRx® Mail Service Pharmacy and local retail pharmacy. The tool will also display any lower cost options to help you make informed decisions about your medication options.

To price your medication, simply follow the steps outlined below.

1. From the “My Prescription Dashboard,” select “Drug Pricing” from the quick links on the right hand side.

2. Enter the name of the prescription you would like to price or select a medication from the list of Previously Prescribed Medication.

3. Select “Search” after one of the above options have been selected.
4 Select your preferred medication from the populated prescription search.

5 Click “Next”

6 Select the correct strength and dosage form of your medication.

7 Provide the quantity and frequency of your prescription.

8 Click “Next”

9 Pricing is displayed for your medication at both the retail and mail service pharmacy.

10 You can also compare the price for your brand medication to lower cost alternatives.

11 To price another medication simply select “Drug Pricing” in the quick links.
