Check your official health plan documents to see what services and providers are covered by your health plan. Costs are average costs from UnitedHealthcare 2015 Commercial Historical Claims and not tied to a specific condition or treatment. Virtual visits are not an insurance product, health care provider or a health plan. Unless otherwise required, benefits are available only when services are delivered through a Designated Virtual Network Provider. Virtual visits are not intended to address emergency or life-threatening medical conditions and should not be used in those circumstances. Services may not be available at all times or in all locations. In an emergency, call 911 or go to the nearest emergency room. Recommendations should not be considered medical advice or a substitute for your doctor's care. You should consult with an appropriate health care professional to determine what may be right for you.
